This chart shows general high school events in Hyogo. Regarding the date of exams, it depends on the schools.

2 Regarding applying for educational exchange programs

If foreign schools would like to interact with Japanese schools or to visit educational institutions, please inquire at HIA through your schools or travel agencies by email.

First, we would like to ask you to submit the application form in Japanese. After we receive it, we will start looking for the school which is suitable for your school. Generally, we require at least three months to arrange exchange programs with Japanese schools. In addition, if you would like to interact with Japanese elementary schools, we require at least four months to arrange programs.

While we strive to find Japanese schools to interact with foreign schools, we cannot guarantee we will find suitable interacting schools in every case. Therefore, early applications are recommended.

During school exchange programs or visiting educational institutions, we would like to ask you to accompany with guides or interpreters who can speak Japanese. We cannot arrange any interpreters.
